# SAF-160
Silicone-Modified Long-Lasting Lipophilic Defoamer

**2024/09/10 Draft.** **PDS**

## Description

SAF-160 is a polyether-type lipophilic defoamer that effectively addresses foam issues in various oil-based processes. It can be used in paints, coatings, ink resin additives, and surface coatings, as well as in the post-treatment of metal surfaces.

## Packaging

Product comes in 20KG HDPE grey drums and 120kg HDPE blue drums loading 100KG(All breathable).

## Characteristics

- Offers excellent dispersing and leveling properties in oil-based and solvent systems, making application easy
- Reduces foam caused by stirring and air entrainment
- Unlike traditional silicone defoamers, it does not cause staining or fisheyes
- Provides long-lasting and efficient defoaming and anti-foaming effects
- Economical to use due to low dosage requirements

## Applications

- It can be used in paints, coatings, ink resin additives, and surface coatings, as well as for resolving issues related to post-treatment of metal surfaces.

## Properties

| Appearance | Milky white liquid |
|---|---|
| Active ingredient(%) | 60.0% |
| Diluent | Nonionic |

## Storage

When stored in its originally sealed packaging at 5°C - 40°C, this product may be stored for up to 8 months from its manufacturing date. Comply with the storage instructions marked on the packaging. Once past this expiration date, TAI COUNTY CHEMICAL no longer guarantees that the product meets the sales specifications.

## Safety

This document does not contain the safety information required for the product. Please read the safety data sheet for this product before use.

The data provided above is to the best of our knowledge and experience and is without any warranty. Users should thoroughly test any application and independently conclude satisfactory performance before use.
